TSO Presents

The Moving Classroom

Whether you're in a classroom in 6 foot squares or on a computer in 12 inch squares, whether you're singing your hearts out over the internet or silenced by masks and safety protocols, my goal is to offer something useful for everyone. We will focus on getting kids moving to help them tap into their musicality and creativity. For our youngest students, we'll explore adapted folk dance, fanciful finger plays, and the world of pretend. For our older students we'll explore body percussion and small movement challenges.
